BICYCLIST TIPS

Ride in the same direction of traffic on the street. Obey all traffic signs, signals, and lane markings.

Yield to traffic when appropriate. It's better to yield than "be in the right" and risk injury.

Be visible. Position yourself in the lane so others can easily see you. Always use a headlight and taillight at night.

Watch for parked cars. Don't ride in the "door zone" of parked cars even when the bike lane is adjacent to them.

PEDESTRIAN TIPS

Obey all traffic laws. If no sidewalks are present, walk against the direction of traffic so you can see oncoming vehicles.

Always use the crosswalk. Push the button to get the walk signal.

Be visible. Wear bright, reflective colors on your clothes, shoes, belts and wristbands.

Look, then look again. Look left, right, then left again before crossing.
