INTRODUCTORY SECTION

March 28, 2023

Honorable Mayor, Members of the Town Council and Citizens Town of Jupiter, Florida

The Annual Comprehensive Financial Report (ACFR) of the Town of Jupiter, Florida, (the “Town”) for the fiscal year ended September 30, 2022, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Town. To the best of our knowledge and belief, the enclosed data is accurate in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town’s financial activities have been included.

Management of the Town is responsible for establishing and maintaining internal controls designed both to protect the government’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town’s financial statements in conformity with U.S. generally accepted accounting principles. The Town’s internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and, (2) the valuation of costs and benefits requires estimates and judgments by management.

The Town’s financial statements are audited by an independent certified public accounting firm. The objective of the audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management to provide reasonable assurance that the financial statements are free of material misstatements.

As part of the Town’s annual audit, a review is made of internal controls and tests are performed to determine that the Town has complied with applicable laws and regulations. The results of the Town’s audit for the fiscal year ended September 30, 2022 identified no instances of material weaknesses in internal controls or material violations of applicable laws and regulations.

The Town is required to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town’s MD&A can be found beginning on page 4 of this report.

GOVERNMENT PROFILE

Government Entity: The Town of Jupiter was incorporated in 1925 as a political subdivision of the State of Florida. Since that time the Town’s geographic size has increased from approximately 8.5 square miles to just over 23 square miles. Located on the Atlantic Ocean in northern Palm Beach County, Jupiter is a vibrant coastal community of more than 60,000 year-round residents, having grown from a sleepy, seaside community with less than 10,000 residents in 1980. During the “season,” which runs from Thanksgiving to Easter, an additional 12,000-15,000 residents call Jupiter “home”.

The Town has operated under the Council-Manager form of government since the early 1970’s. Policy making and legislative authority are vested in the Town Council. The Council consists of the Mayor and four other Councilors. The Town Manager is appointed by the Town Council and is responsible for carrying

out the policies and ordinances established and approved by the Town Council and managing the day-to-day activities of the Town government. The Town provides a variety of services including public safety, public works, culture and recreation, protective inspections, water and stormwater utilities as well as general administrative services.

Reporting Entity: The management of the Town has considered whether there are potential component units that should be included in the Town's financial statements, by applying the criteria set forth by U.S. generally accepted accounting principles. Based upon the application of these criteria, the only entity to consider was the Jupiter Community Redevelopment Agency (the "CRA"); a dependent special district established by the Town, under authority granted by Florida Statute 163, Section III. The CRA is included in the Town's financial reporting entity as a blended component unit reported in a governmental (special revenue) fund, the Community Redevelopment Fund.

Budgetary Control: The Town adopts an annual operating budget which serves as the foundation for the Town's financial planning and control. The Town Council is required by state statute to hold two public hearings and adopt a final budget by no later than the beginning of the fiscal year (October 1st). The operating budget is prepared by fund, function and department. Directors, with the Town Manager's approval, may make budget transfers within a department. Transfers between departments require the approval of the Town Council. In addition to the operating budget, the Town Council also updates and approves the Town's five-year Community Investment Program annually.

FINANCIAL CONDITION AND OUTLOOK

Local Economy: Palm Beach County is the 3rd most populous county in the State of Florida. The latest population estimate prepared by the US Census Bureau indicates that the current population of the Town exceeds 61,000 and the County is approximately 1.4 million. Projections show the County population growing at an estimated annual rate of .84 percent over the next 15 years, with corresponding increases in service businesses and light industry. The County's median family income is \$84,508 and the October 2022 unemployment rate was 2.7%.

The Town's major challenges are to provide the infrastructure and services required to maintain the quality of life to which Jupiter's residents and visitors have grown accustomed, to create future economic growth opportunities for the community and to position Jupiter to be ready to capitalize on those opportunities as the local and state economies remain stable.

Major Industries: As the local and national economy continue to strengthen, the Town's primary focus in relation to future job creation is on the targeted industries of biotechnical science and aerospace engineering. Since 2007, the Town has utilized the resources of its Economic Development Fund, in conjunction with its strategic partners, to provide financial assistance to growing biotech businesses which allowed them to develop new technologies and create jobs in our community. Often times, these new technologies are discovered or nurtured at The Scripps Research Institute and Max Planck Florida Institute for Neuroscience, both located in Jupiter at the Florida Atlantic University campus. Since the inception of the Economic Development Fund and Jupiter's proactive approach to industry recruitment and expansion and by targeting industries, the Town has created a diversified economy in relation to its current economic base. Traditional job creation efforts centered on tourism, healthcare, retail and housing activities, continue to show growth and provide the Town with a realistic opportunity to grow the local economy in the coming years.

External Financial Pressures: Covid-19 negatively impacted global, national, state and local economies. The shut down and decline in statewide business activity which started in March of 2020 was a very unique circumstance when compared to other recessions that affected economies on a global scale. Unlike the most recent recession of 2008 triggered by the credit/housing crisis, most economists are calling the Covid-19 pandemic a "short term" recession. The recession caused by the pandemic predominantly effected only the Town's General Fund. Town revenues that experienced the most strain relating to the recession were State Shared Revenues, Sales Tax, Sales Surtax and revenues related to Recreation activity. Ad Valorem tax

collections which makes up 42% of the General Funds revenue continues to stay strong due to the Town's robust housing market and increases in sales activity through out FY2022. The United States still dealing with issues surrounding the world wide Covid-19 pandemic of 2020 which lead to nation-wide lockdowns, layoffs, governmental stimulus spending and crimping of global supply chains was further exacerbated by Russia's invasion of Ukraine which created additional supply bottlenecks and raised commodity prices even further on such items as food and gasoline. Throughout FY2022 the U.S. economy continued to experience vulnerability related to an environment of uncertainty stemming from supply chain issues and high inflation. The annual inflation rate in the US accelerated to 9.1% in June of 2022, the highest since November of 1981. Energy cost specifically surrounding, motor fuel prices (which includes all types of gasoline) spiked in FY2022. Gasoline prices increased 59.9 percent, the largest 12-month increase since March 1980. Electricity prices rose 13.7 percent, the largest 12-month increase since April 2006. Natural gas (piped utility gas) prices increased 38.4 percent over the 12 months ended June 2022, the largest increase since October 2005. Consumer spending and demand throughout FY2022 remained high driven by increases in wages, governmental stimulus and credit spending. This increase in demand by consumers further compounded inflation in the US. At the end of the 2022 fiscal year inflation was down to 8.2% nationally. The Town is not isolated from these pressures and has been monitoring upward increases in construction costs for new construction projects along with increased prices and delivery delays for such things as replacement vehicles and chemicals to be used in the water treatment process.

Relevant Financial Policies: The Town has an "informal" policy supported by the Town Council in each year's annual operating budget that provides for the unassigned fund balance in the General Fund to equal or exceed twenty-five percent (25%) of the subsequent year's operating budget. Historically speaking, the Town has always maintained a fund balance targeted to protect its interest and provide needed financial resources to restore services and provide clean up in the event of natural disasters such as major hurricanes, to provide loans to other funds, and to ensure that large projects that have required the use of fund balance are completed successfully. In order to maintain this balance and allow the Town to continue its obligation to its residents as a first responder in the face of natural disasters and other unforeseen circumstances, the Town has implemented the following cost strategies to reduce operating cost and allow for an appropriately sized unassigned fund balance:

- Maintain the size of government based on community needs.
- Aggressively seek affordable healthcare options to allow for sustained viability of the Town's employee health plan while working to reduce the Town's operating costs.
- Realign capital investments to better align with the strategic goals of the Town.
- Work with developers to foster redevelopment projects within the community to allow for a stable tax base.

Major Initiatives: The Town has devoted significant amounts of time, energy and resources over the years to the continued growth and development that has occurred and the many challenges that strong growth has brought with it. During the budget planning process, the Town introduces or continues various initiatives/capital programs, each of which integrates the current activity of the Town into a five year forward looking Community Investment Program.

The Town, through its five year Community Investment Program, will be devoting financial resources to a number of projects that will improve our infrastructure and recreational amenities so as to maintain the exceptional quality of life enjoyed by our residents while working to maintain that "small town" feel which makes Jupiter such a unique and desirable community.

The following initiatives, some new and some on-going, are briefly outlined to illustrate the commitment by the Town and the challenges it faces in meeting current and future service delivery expectations.

- **Street Resurfacing** – The Town has over 146 miles of neighborhood streets and roads that fall within its jurisdiction of responsibility for repair and maintenance. In order for the Town to remain

a desirable place to live, it will be investing through its neighborhood repaving program approximately \$5.7 million over the next five years.

- **Open Space Properties** – In March of 2019, Jupiter voters approved a referendum authorizing the Town to issue up to \$20 million in general obligation bonds for the purpose of acquiring land that is environmentally sensitive, waterfront and recreational lands, lands for open space, archaeological or historic preservation as well as traffic mitigation. All of which will be accessible and benefit the public for years in the future. In June of 2021 the Town Council authorized the purchase of 7 plus acres of conservation land under the Jupiter referendum for \$3,322,964.
- **Jupiter Community Park Renovation Project** - The Town Council has programmed in its FY21/22 Community Investment Budget \$5,093,500 to come from infrastructure surtax funds for the planned improvements at Jupiter Community Park. The park improvements will occur in stages over the next few years and is anticipated to cost just over \$8 million in surtax funding. The project scope includes drainage improvements, athletic field lighting replacement with LED, area lighting replacement with LED, restroom and dugout rehabilitation, removal/replacement of deteriorated sidewalks, parking lot/street resurfacing, and rail fence replacement.
- **Indiantown Rd Western Corridor Improvements** – This project will provide safety and congestion improvements by providing additional lanes for traffic on eastbound and westbound Indiantown road from Central Boulevard through the southbound I-95 off ramp. This project is being funded with a blend of FDOT, road impact fees and general revenues.
- **New Town Hall** – Town Council established a high priority strategic initiative to address the Municipal Complex's deficiencies relative to withstanding hurricanes and providing proper security for residents and Town staff. The new building currently under construction will meet the Town's needs into the future. The overall project is estimated to cost approximately \$25 million and is currently funded through a blend of existing infrastructure surtax fund's, general revenues and enterprise fund contributions.
- **American Rescue Plan Act (ARPA) Funds / Utility Infrastructure** - On March 11, 2021, the President signed into law the American Rescue Plan Act, which among other items within the bill provides funding to state and local government agencies affected by the Covid-19 pandemic. The Town has received \$7,590,958 through the American Rescue Plan and has allocated these funds for area stormwater improvements. The Seminole Ave Stormwater Basin Improvement Project has received \$3.7 million in ARPA funding in FY2021. The remaining \$3.7 million has been dedicated to the Pine Gardens North Infrastructure Improvement Project which supports the Town's Strategic Plan Results of Fiscal Responsibility and Safety by managing the renewal and replacement of water system assets to provide well maintained neighborhood infrastructure at established levels of service. These activities enable the Utility to provide safe and reliable drinking water plus necessary fire protection. In addition, improvement to levels of service for flood protection and water quality of stormwater runoff will be provided.
- **Water Utilities** - The Utilities department will continue their work on expanding the water distribution systems to provide potable drinking water to neighborhoods within the Town's service delivery area that have yet to obtain services.

Infrastructure Sales Surtax

On November 8, 2016 the voters of Palm Beach County approved a referendum to levy a one-cent sales tax to assist in funding infrastructure improvements for the Palm Beach County School District, Palm Beach County and the Municipalities.

The intent of the funds collected from the surtax is to promote safe, efficient, and essential public services provided by the County, the Municipalities, and the School Board, including but not limited to safe and efficient transportation infrastructure, public safety, parks and recreational facilities, governmental facilities, better water quality through improved stormwater management, and quality public education.

The funds are paid by the State Department of Revenue monthly which started in January 2017. Over the life of the adopted 10 year referendum, the Town's share of the collections is estimated to be approximately \$40,000,000.

To date the Town has utilized approximately \$20 million in Infrastructure Sales Surtax funds to partially fund the construction of a new \$20 million Police and Data Center building on the Town campus, renovations at Jupiter Community Park and the beginning of construction activity on the New Town Hall project.

OTHER INFORMATION

Independent Audit: Florida Statutes Chapter 11.45 requires an annual financial and compliance audit by an independent certified public accountant. The auditor's report on the financial statements is included in the Financial Section of this report. The auditor's report related specifically to compliance with *Government Auditing Standards* is included in the Compliance Reports Section.

Awards: The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended September 30, 2021, the thirtieth consecutive year the Town has received this prestigious award. In order to be awarded a Certificate of Achievement, the Town published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments : The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated services of the entire staff of the finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

We believe this report reflects the continued excellent financial position of the Town of Jupiter. We would like to thank the Mayor, the Town Council and the residents of the Town for your interest and support toward the planning and administration of the financial operations of the Town in a responsible and progressive manner. With this support, we have been able to maintain a high degree of fiscal health and responsibility for the Town of Jupiter.

INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor, Members of the Town Council,
Audit Committee and Town Manager
Town of Jupiter, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jupiter, Florida (the "Town"), as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Municipal Police Officers' Retirement Trust Fund, the fiduciary fund of the Town, which represents 87%, 87% and 45%, respectively, of the assets, net position/fund balances, and revenues/additions of the aggregate remaining fund information as of September 30, 2022. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Municipal Police Officers' Retirement Trust Fund, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14, the budgetary comparison schedules on pages 92-98, the pension information on pages 99 to 104 and the other postemployment benefits information on page 105 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining fund financial statements and the individual fund budgetary comparison schedules on pages 106 through 109, and schedule of expenditures of federal awards on page 139, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and individual fund budgetary comparison schedules, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2023 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

Acting in our capacity as the management of the Town of Jupiter, Florida, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town of Jupiter, Florida, for the fiscal year ended September 30, 2022.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$531,675,534 (*total net position*). Of this amount, approximately \$186,696,000 (*unrestricted net position*) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's operations increased net position by approximately \$21,644,000. Approximately 104% of this increase is attributable to governmental activities and a 4% decrease is attributable to business-type activities.
- As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$114,738,560, an increase of \$24,372,786 from the prior year fund balance. Approximately 41% of the total fund balance amount is *available for spending* at the Town's discretion (*unassigned fund balance*).
- At the end of the fiscal year, unassigned fund balance for the General Fund was \$48,162,407, or 90% of total General Fund expenditures for the current fiscal year.
- The Town's total debt (bonds and notes payable) decreased by approximately \$4,255,000 (19%) during the current fiscal year. The decrease was attributable to scheduled principal payments on the debt.
- The Town received its second tranche of \$3.8 million in American Rescue Plan Act ("ARPA") Funds from the Department of Treasury in June of 2022. The Town received a total of \$7,590,958 in ARPA funding.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The basic financial statements of the Town comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flow*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, engineering and public works, and culture and recreation. The business-type activities of the Town include the Water System, Stormwater Utility and Building Department.

The Jupiter Community Redevelopment Agency, although a legally separate entity, functions for all practical purposes as a department of the Town, and therefore has been included as an integral part of the primary government (*a blended component unit*). The government-wide financial statements can be found on pages 15-17 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- ***Governmental funds*** - *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenue, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town maintains twelve individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenue, expenditures, and changes in fund balances for the General Fund, Community Redevelopment Fund, American Rescue Plan Fund and Capital Improvements Fund, which are considered to be major funds. Aggregated data for the remaining nonmajor governmental funds is also presented. The basic governmental funds financial statements can be found on pages 18-21 of this report.

- ***Enterprise funds*** - The *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses three enterprise funds to account for the separate operations of its Water System, Stormwater Utility and Building Fund. The basic enterprise fund financial statements can be found on pages 22-26 of this report.
- ***Fiduciary fund*** - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for the enterprise funds. The Town's only fiduciary fund is the Municipal Police Officers' Retirement Trust Fund (MPORT), which is used to account for the assets held in a trustee capacity for the retirement pensions of the Town's police officers. The basic fiduciary fund financial statements can be found on pages 27-28 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-91 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The Town adopts an annual appropriated budget for the General Fund and Community Redevelopment Fund. Budgetary comparison schedules and accompanying notes for both funds are included as required supplementary information on pages 92-98 to demonstrate compliance with the adopted budget. The Town also presents required supplementary information related to its defined benefit retirement plans and other postemployment benefits (OPEB) plan on pages 99-105.

The Town also adopts an annual budget for the Capital Improvements Fund and the Debt Service Fund. Budgetary comparison schedules for these funds are included as supplementary information with the combining fund financial statements. The combining fund financial statements and individual fund budgetary comparison schedules are presented immediately following the required supplementary information on pages 106-109.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows exceeded liabilities and deferred inflows by approximately \$531,675,000 at the close of the most recent fiscal year. The Town's net position at September 30, 2022 and 2021 is summarized as follows (in thousands):

Summary of Changes in Net Position

The largest portion of the Town's net position (62%) reflects its investment in capital assets (e.g., land, buildings, improvements, machinery and equipment and infrastructure), less any related debt and deferred inflows/outflows used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position (3%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$187 million) may be used to meet the Town's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the Town is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Changes in Net Position

The Town's net position increased by approximately \$21.6 million during 2022. The increase is due to increases in charges for services, property taxes and other taxes.

The changes in the Town's net position for the fiscal years ended September 30, 2022 and 2021 are summarized as follows (in thousands):

Governmental Activities

Governmental activities increased the Town's net position by \$22,488,634, thereby accounting for 104% of the total growth in the net position of the Town. This increase is directly attributed to increases in revenue collections and an increase in transfers from business-type funds. When compared to the previous year, revenues increased approximately \$7.7 million and transfers increased by approximately \$7.3 million. These increases were offset by increases in expenses of approximately \$9.3 million.

Business-type Activities

Business-type activities decreased the Town's net position by approximately \$844 thousand. Key elements of this change were as follows:

- The Water System change in net position was \$1,155,099 which was \$6,918,149 lower than the prior year. The current year change in net position is attributable to operating revenues in excess of operating expenses of \$3,197,493, utility connection charges of \$1,384,853 netted against transfers out of \$2,680,135.
- The Stormwater Utility change in net position was \$2,893,925 which was \$1,665,549 higher than the prior year. The current year change in net position is attributable to operating revenues in excess of operating expenses of \$538,536 and capital contributions of \$384,584 and transfers in of \$2,509,341.
- The Building department change in net position was (\$4,893,795) which was \$7,171,154 lower than the prior year. The current year change in net position is attributable to operating revenues in excess of operating expenses of \$2,396,407 offset by transfers out of \$7,290,463.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The significant financial activities of the Town's funds are described below.

Governmental Funds

The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balance of \$114,738,560, an increase of \$24,372,786 from the prior year. Approximately 41% of the total fund balance at September 30, 2022 \$47,017,415 constitutes *unassigned fund balance*, which is available for spending at the Town's discretion. The remainder of the fund balance is not available for new spending and is broken down into the following categories:

Nonspendable	\$3,964,589	3%
Restricted	15,290,419	13%
Assigned	48,466,137	42%

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$48,162,407, while total fund balance was \$53,310,829. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total General Fund expenditures. Unassigned fund balance represents 90% of total General Fund expenditures for 2022. The fund balance of the Town's General Fund decreased by \$3,707,379 during the current fiscal year as compared to an increase of \$5,121,315 for the prior year. The key factor contributing to the current year

decrease is an increase in transfers out of \$8,505,036 to the capital improvement fund for the construction of a new town hall.

The Community Redevelopment Fund (CRA) had a fund balance deficit of \$1,144,497, substantially all of which is attributable to a liability to the General Fund and Capital Improvement Fund for advances to fund various construction projects and land acquisitions by the CRA. The General Fund and Capital Improvement Fund advances will be repaid from future tax increment funds received by the CRA as commercial and redevelopment projects increase taxable property values in the CRA district. The CRA had a decrease in the fund balance deficit during 2022 of \$1,842,076 as compared to \$833,533 for the prior year. The key factors contributing to the change were an increase in tax increment revenues \$316,094, a decrease in expenditures of \$498,378 and a transfer in of \$270,888.

The American Rescue Plan Fund had a fund balance of \$0 at fiscal year end 2022, the same as in fiscal year 2021. The American Rescue Plan Fund recognized \$2,833,280 in American Rescue Plan Act (ARPA) funding, which was transferred for construction of water and stormwater infrastructure improvements.

The Capital Improvements Fund has a total fund balance of \$49,282,938 which is intended for the Town's current and future capital projects. The net increase in fund balance during the current year in the Capital Improvements Fund was \$27,731,799 as compared to the increase of \$1,440,245 for the prior year, primarily as a result of increases in net transfers of \$27,154,656 to fund the new town hall building project.

Enterprise Funds

The Town's enterprise fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water System Fund, Stormwater Fund and Building Fund at the end of the year amounted to \$89,456,908, \$8,652,827 and \$13,921,977, respectively. The total change in net position of the Water System Fund, Stormwater Fund and Building Fund was \$1,155,099, \$2,893,925, and (\$4,893,795), respectively. Other factors concerning the finances have already been addressed in the discussion of the Town's business-type activities.

BUDGETARY HIGHLIGHTS

General Fund: Differences between the original budget and the final amended budget for total expenditures resulted in a net increase of approximately \$2,124,084 in appropriations for 2022 and were generally attributable to the re-appropriation of open contracts from the previous fiscal year and appropriated revenues received but not originally budgeted. In addition, there were other financing uses as follows:

- \$10,662,648 was appropriated from fund balance for the construction of the new Town Hall Project.

During the year, actual revenues were \$2,727,391 more than budgetary estimates due primarily to increases in state shared and sales tax revenues of \$2,004,921 which were a direct result of the economic recovery from the poorer economic conditions triggered by the Covid-19 pandemic. Actual expenditures and other financing uses were under budget by \$3,860,997 due to savings in various departments as follows: general government \$1,296,621, public safety \$906,981, engineering and public works \$1,068,020 and culture and recreation \$589,375.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: The Town's investment in capital assets for its governmental and business-type activities as of September 30, 2022, amounts to approximately \$347.1 million (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, park facilities, easements, roads, highways and bridges, water plant facilities, water meters and transmission lines. The total decrease in the Town's investment in capital assets for the current fiscal year was approximately \$1.4 million or less than 1% (all of which came from governmental activities).

The Town's capital assets at September 30, 2022 and 2021 are summarized as follows:

Capital Assets						
(Amounts in Thousands, net of accumulated depreciation)						
	Governmental Activities		Business-type Activities		Total	
	2022	2021	2022	2021	2022	2021

Major capital asset events during the current fiscal year included the following:

- The construction of the new town hall.
- A variety of roadway and landscape improvements throughout the Town.
- Improvements to various Town parks.
- Improvements to the water distribution system in targeted neighborhoods.
- Improvements to the water transmission systems.
- Continuing well rehabilitation program in the water utility.
- Improvements to water processing equipment and operations technology.
- Continuing drainage and swale rehabilitation programs and expansion of pump station systems to improve the quality of stormwater runoff.
- On-going investment in the police vehicle replacement program.
- A continuing reinvestment in the Town's sidewalk and street infrastructure.

Additional information on the Town's capital assets can be found in Note 6 on pages 55-56 of this report.

Outstanding debt. At the end of the current fiscal year, the Town had total bonded debt and loans outstanding of \$17,768,217. Of this amount, \$5,925,217 is general obligation bonded debt. The remainder of the Town's debt of \$11,843,000 represents bonds and notes secured solely by the net revenues of the Enterprise Funds. The Town's total debt decreased by approximately \$4,255,000 or 19% during the current fiscal year, due to the retirement of maturing debt. The Town's outstanding debt at September 30, 2022 and 2021 is summarized as follows:

	Outstanding Debt					
	General Obligation and Revenue Bonds / Note					
	Governmental Activities		Business-type Activities		Total	
	2022	2021	2022	2021	2022	2021
General obligation note	\$ 5,925	\$ 7,886	\$ --	\$ --	\$ 5,925	\$ 7,886
Water system revenue bonds / note	--	--	11,843	14,137	11,843	14,137
Total	<u>\$ 5,925</u>	<u>\$ 7,886</u>	<u>\$ 11,843</u>	<u>\$ 14,137</u>	<u>\$ 17,768</u>	<u>\$ 22,023</u>

The Town as a whole has maintained a "AAA" rating from Standard & Poor's and Fitch and a "Aaa" rating from Moody's on their outstanding bonded debt. Town ordinances limit the amount of general obligation debt the Town may issue to 15% of the total assessed valuations of property located in the Town. The current debt limitation for the Town is approximately \$2.1 billion, which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found in Note 7 on pages 57-62 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Town's 2023 General Fund budget is approximately \$63.7 million, or an increase of approximately \$7 million from the original budget adopted for 2022. The following factors were considered in preparing the Town's budget for the 2023 fiscal year.

- Increases in property values and the overall stable housing market will continue to have a positive impact on ad-valorem tax revenues in FY 2023. There was a 13.11% increase in property values for FY 2023, with no change in millage.
- Increases in state shared and sales tax revenues due to the easing of recessionary pressures caused by the COVID-19 pandemic.
- Increase in interest earnings due to increases in interest rates.
- Funding used for investment in infrastructure that supports the needs of the community.
- Significant increase in chemical costs used in the water treatment process.

Water System revenues are expected to remain stable and increase slightly depending upon weather conditions in the coming year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director at 210 Military Trail, Jupiter, Florida 33458.

TOWN OF JUPITER, FLORIDA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

Net Change in Fund Balance - Total Governmental Funds \$ 24,372,786

Amounts reported for governmental activities in the statement
of activities are different because:

Governmental funds report capital outlays as expenditures.
However, in the statement of activities, the costs of those assets
is allocated over their estimated useful lives as depreciation
expense. Capital outlays and depreciation expense were as
follows in the current period:

Capital outlay	\$ 3,944,786	
Depreciation expense	<u>(5,526,275)</u>	
Net adjustment		(1,581,489)

In the statement of activities, only the gain or loss on the sale of
capital assets is reported, whereas in the governmental funds the
proceeds from the sale increase financial resources. The change
in net position differs from the change in fund balances by the
net book value of assets disposed. (202,900)

Payment of accrued interest is an expenditure in the Governmental
funds, but is a reduction of accrued liabilities in the statement of
net position. (7,651)

The repayment of long-term debt consumes the current financial
resources of governmental funds. However, these transactions
do not have effect on net position of the governmental activities.
Governmental funds report the effect of debt discount when debt
is issued, whereas these amounts are deferred and amortized in the
statement of activities:

Debt retirement - principal paid	1,960,641
----------------------------------	-----------

Some expenses reported in the statement of activities are not
reported in the funds because they have no effect on current
financial resources:

Compensated absences	15,609	
Tax increment incentive	(191,396)	
Other postemployment benefits liability	180,127	
Pension expense	<u>(2,057,093)</u>	
Net adjustment		<u>(2,052,753)</u>

Change in Net Position of Governmental Activities \$ 22,488,634

NOTES TO FINANCIAL STATEMENTS

TOWN OF JUPITER, FLORIDA

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Town of Jupiter, Florida (the “Town”), is a political subdivision of the State of Florida incorporated on February 9, 1925, under the authority of Chapter 165, Florida Statutes, and was established by House Bill 698, Laws of Florida, 1925. The Town is governed by five Councilors elected by residents of the Town. The accompanying financial statements present the Town and its blended component unit, a legally separate entity for which the Town is considered financially accountable.

The financial statements of the Town have been prepared in accordance with United States of America generally accepted accounting principles (GAAP) as applied to governmental units in accordance with the Government Accounting Standards Board (GASB) pronouncements. As defined by GAAP, the financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable.

BLENDED COMPONENT UNIT

The Jupiter Community Redevelopment Agency (the “CRA”) is a dependent special district established by the Town of Jupiter, Florida, under authority granted by Florida Statute 163, Section III. The CRA is included in the Town’s financial reporting entity as a blended component unit reported in a governmental (special revenue) fund, the Community Redevelopment Fund. The purpose of the CRA is to promote and guide the physical and economic development of approximately 400 acres along the Intracoastal Waterway in the Town of Jupiter. The CRA is a legally separate entity established by Ordinance number 60-01 of the Jupiter Town Council in December 2001. The governing body of the CRA consists of the Town Council and the Town handles the management and administration of the CRA’s financial matters. Separate audited financial statements are prepared for the CRA and can be obtained from the Town.

RELATED ORGANIZATION

The Northern Riverwalk Community Development District (the “NRCDD”) was created on May 19, 2009 by Ordinance 1-09 of the Town of Jupiter, Florida, pursuant to the Florida Uniform Community Development District Act of 1980. The NRCDD was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for development within the NRCDD. The NRCDD is governed by a Board of Supervisors (the “Board”), which is composed of five members elected by the owners of the property within the NRCDD. The Town does not approve budgets, retain any financial interest or have any obligation for debt and cannot impose its will on the NRCDD. Accordingly, the NRCDD is not included in the Town’s financial reporting entity.

Government-wide Financial Statements: The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities and report information on all non-fiduciary activities of the Town and its component unit. These financial statements include separate columns for the *governmental activities*, which are normally supported by taxes and intergovernmental revenue, and *business-type activities*, which rely primarily on fees and charges for support. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Town’s enterprise funds operations and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. All internal balances in the Statement of Net Position have been eliminated, except those representing balances between the governmental activities and business-type activities, which are presented as internal balances and eliminated in the Total Column. In the Statement of Activities, all interfund transactions have been eliminated, except for charges between the Town’s governmental activities and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or identifiable activity is offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. Program revenue includes three categories of transactions: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; (2) operating grants and contributions; and, (3) capital grants and contributions. Taxes and other items not meeting the definition of program revenue are reported as general revenue. The Town does not allocate indirect costs, however, an administrative service fee is charged by the General Fund to recover the direct costs of General Fund services provided (such as finance, legal, human resources, information systems, etc.).

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FUND FINANCIAL STATEMENTS

The underlying accounting system of the Town is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures or expenses, as appropriate.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The funds used by the Town are classified into three categories: governmental, proprietary and fiduciary. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The Town's major governmental funds and enterprise funds are reported as separate columns in the fund financial statements.

- **Governmental Fund Financial Statements** – Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and nonmajor funds in the aggregate. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements, to the net position and changes in net position presented in the government-wide financial statements. The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Community Redevelopment Fund* accounts for the economic development activities of the Jupiter Community Redevelopment Agency, whose primary restricted revenue source is from tax increment revenue.

The *American Rescue Plan Fund* accounts for the restricted revenues and expenditures associated with the Coronavirus State and Local Fiscal Recovery Funds established by the American Rescue Plan Act ("ARPA").

The *Capital Improvements Fund* accounts for the purchase and construction of major capital facilities and projects included in the Town's adopted five year Community Investment Program which is funded primarily by ad valorem property tax revenue.

FUND FINANCIAL STATEMENTS (CONTINUED)

- **Proprietary Fund Financial Statements** – Proprietary Fund Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows. The Town reports the following major proprietary funds:

The *Water System Fund* accounts for operations of the Town’s water utility system.

The *Stormwater Fund* accounts for operations of the Town’s stormwater collection, treatment and disposal system.

The *Building Fund* accounts for operations of the Town’s building department.

- **Fiduciary Fund Financial Statements** – Fiduciary Fund Financial Statements include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. The Town’s only Fiduciary Fund is a pension trust fund. Since by definition these assets are being held for the benefit of third parties (pension participants) and cannot be used to finance activities or obligations of the government, these funds are not included in the government-wide financial statements. The only Fiduciary Fund of the Town is as follows:

The *Municipal Police Officers’ Retirement Trust Fund* (“MPORT”) is used to account for assets held in a trustee capacity for the retirement pensions of all permanent, full-time Town police officers.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Financial reporting is based upon all pronouncements of GASB. The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenue is recognized when earned and expenses are recognized when incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all-purpose restrictions imposed by the provider have been met.

TOWN OF JUPITER, FLORIDA

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (CONTINUED)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under the modified accrual basis of accounting, revenue is recognized in the period in which it becomes both measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Town considers revenue to be available if it is collected within 60 days of the end of the current fiscal year. Property taxes are recognized as revenue in the year for which they are levied. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt, which is recognized when due. Intergovernmental revenue, franchise fees, charges for services and investment income are all considered susceptible to accrual and so have been recognized when due as revenue in the current fiscal year. All other revenue items are considered to be measurable and available only when received in cash by the Town.

Proprietary fund financial statements distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. The proprietary funds also recognize as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the water system. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

For purposes of measuring the net pension liability (asset), deferred inflows/outflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's defined benefit pension plan and Florida Retirement System and the additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the Town's defined benefit pension plan and the Florida Retirement System. Pension benefit payments (including refunds of employee contributions) and other postemployment benefits ("OPEB") benefit payments for the Town's OPEB plan are recognized when due and payable in accordance with the benefit terms.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PROPERTY TAXES

Ad valorem property taxes are assessed on property valuations as of January 1st and levied the following October 1st. Taxes are due by March 31st and become delinquent on April 1st, when liens are filed against the subject property. Ad valorem taxes are assessed by the Palm Beach County Property Appraiser and collected by the Palm Beach County Tax Collector, which remits the taxes to the Town. Revenue is recognized at the time the taxes are received from Palm Beach County. Pursuant to Florida law, the Palm Beach County Tax Collector advertises and sells tax certificates on all real property for which there are unpaid, delinquent taxes. Accordingly, the Town has no property taxes receivable at September 30, 2022.

Tax revenues are generated by a millage rate set annually by the Town Council with a legal limit of 10 mills (\$10.00 per \$1,000 of taxable property value). The Town contracts fire rescue services to Palm Beach County Fire Rescue MSTU (municipal services taxing unit), which levies a separate tax on Town property owners of 1.7880 mills. The Palm Beach County Fire Rescue MSTU millage rate is deducted from the Town's legal millage rate cap of 10 mills, thereby reducing the Town's millage rate cap to 8.212.

During 2007, the Florida Legislature passed property tax reform legislation limiting the property tax levies of local governments in the State of Florida. Local governments that adopt a property tax levy in excess of the limit under State law will lose their Half-Cent Sales Tax distribution from the State for the succeeding twelve months. The State law allows local governments to adopt a millage rate based on the following approval of the governing body: (1) a majority vote to adopt a rate equal to the adjusted current year rolled-back millage rate plus an adjustment for growth in per capita Florida personal income; (2) a two-thirds vote to adopt a rate equal to the adjusted current year roll back millage rate plus 10%; or (3) any millage rate approved by unanimous vote or referendum. For the fiscal year ended September 30, 2022, the Town maintained a flat millage rate of 2.4633, which was less than the maximum tax rate permitted. This millage rate resulted in a total tax levy, including the CRA, of \$29,389,983 for 2022, representing 3.2% increase over the property tax levy for 2021. Future property tax growth is limited to the annual growth rate of per capita personal income plus the value of new construction.

TOWN OF JUPITER, FLORIDA

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of petty cash, deposits with financial institutions in interest and non-interest bearing checking accounts and money market accounts and money market mutual funds. The Town considers all highly liquid investments with original maturities of ninety days or less to be cash equivalents. Money market mutual funds held by MPORT are considered part of the long-term investment portfolio.

INVESTMENTS

The Town's investments consist of U.S. Government Agency securities, tax-exempt state and local debt securities, and asset-backed bonds reported at fair value. Investments in Florida PRIME, money market mutual funds and certificates of deposit are reported at amortized cost. Negotiable certificates of deposit in the Pension Fund, U.S. Government and Agency securities, asset-backed bonds, domestic and foreign equity and debt securities, equity mutual funds, REIT index funds and commingled real estate funds reported at fair value. Florida Cooperative Liquid Assets Securities System ("FLCLASS") and Florida Local Government Investment Trust ("FLTRUST") (2a7-like external investment pools) are measure at net asset value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are measured at fair value on a recurring basis.

ACCOUNTS RECEIVABLE

General government accounts receivable includes State shared revenues and charges for miscellaneous services. Accounts receivable reported in the Proprietary Funds represent amounts due for water and stormwater services from utility customers and building related fees due from developers and individuals, generally all of whom are local businesses and residents. Noncurrent receivables in the Water System Fund include amounts due from developers for connection fees and guaranteed revenues that are payable when connections are made to the utility system. Utility customers pay a cash deposit to the Town as collateral for future charges for services. The Town does not require collateral for other accounts receivable. Accounts receivable are reported net of an allowance for uncollectible accounts determined based on the age of the individual receivable, with age categories ranging from 21 days past due to several years past due. Generally, the allowance includes accounts over 120 days past due. Accounts receivable are written off on an individual basis in the year the Town deems them uncollectible.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INTERNAL BALANCES

Amounts reported in the fund financial statements as interfund receivables and payables are eliminated in the government-wide governmental and business-type activities columns of the statement of net position, except for any residual amount, which is presented as internal balances.

INVENTORY

Inventory recorded in the General Fund represents fuel and oil and inventory in the Water System Fund represent parts, materials and supplies in storage at year end. Inventory is valued at cost (first-in/first-out) and is recorded under the consumption method which records inventory as expenditures when used. Reported amounts in governmental funds are equally offset by nonspendable fund balance in the fund financial statements, which indicates that these amounts do not constitute “available spendable resources” even though they are a component of current assets.

PREPAID ITEMS/EXPENSES

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items/expenses under the consumption method. Reported amounts in governmental funds are equally offset by nonspendable fund balance in the fund financial statements, which indicates that these amounts do not constitute “available spendable resources” even though they are a component of current assets.

RESTRICTED ASSETS

Certain cash equivalents and investments of the General Fund and Capital Improvements Fund are restricted for land acquisition and economic development. Restricted resources are used first to fund expenditures incurred for restricted purposes.

CAPITAL ASSETS

The Town reports all capital assets, including infrastructure assets (roads, sidewalks and similar items), in the government-wide statement of net position. Capital assets are defined by the Town as assets with an estimated useful life in excess of one year and an initial, individual cost of more than \$5,000, or software with an individual cost of more than \$25,000. Capital assets are recorded at cost or, if donated, at acquisition value at the date of donation. Expenses which materially extend the useful life of existing assets are capitalized. Costs for professional services associated with the acquisition and construction of enterprise fund capital assets are capitalized. Interest cost was capitalized on enterprise fund capital assets during the construction period prior to the adoption of GASB Statement No. 89 in fiscal year 2018. The cost of capital assets sold or retired is removed from the accounts and any resulting gain or loss is included in the change in net position. Depreciation is computed using the straight-line method over the estimated useful lives of all reported capital assets, except land. Estimated useful lives assigned to categories of assets are as follows:

Buildings and plant	5-70 years
Improvements	15-70 years
Equipment and vehicles	5-20 years
Infrastructure	7-25 years

UNEARNED/UNAVAILABLE REVENUES

Unearned revenue in the governmental activities and unavailable revenues (a deferred inflow of resources) in the governmental funds include amounts received in advance of the related services being provided by the Town and earned interest income that is not currently due. Unearned revenue in the business-type activities and enterprise funds includes utility payments from customers and other amounts received in advance of the related services being provided by the Town.

COMPENSATED ABSENCES

The Town records accumulated, unpaid vacation, sick and compensatory pay in the enterprise funds as a fund liability. The liability for compensated absences attributable to the Town's governmental funds is recorded only in the government-wide financial statements. The liability for compensated absences of both the governmental and enterprise funds includes related payroll taxes and benefits. Employees may accumulate up to forty

days' vacation leave. Employees accrue sick leave at the rate of eight hours per month until retirement or termination, at which time they are paid for up to 50% of their unused sick leave, based on their length of service with the Town. Accordingly, the Town accrues up to 50% of eligible, unused sick leave and related payroll taxes and benefits in the year earned. The Town records compensatory time and related payroll taxes and benefits in the year earned.

NONCURRENT OBLIGATIONS

In the government-wide financial statements and enterprise fund financial statements, long-term debt and other noncurrent obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise fund statement of net position. Long-term debt is reported net of applicable premium or discount. Debt discount and premium in the government-wide financial statements and enterprise funds are amortized using the straight-line method, which approximates the effective interest method, and are charged against operations over the term of the debt issues.

Unamortized debt discount and premium is presented as a reduction of or addition to long-term debt payable. Issuance costs of debt are reported as current period expenses.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets and liabilities, the government-wide Statement of Net Position and the governmental funds Balance Sheet report a separate section for deferred outflows or deferred inflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The Town reports deferred charges on refundings as deferred outflows of resources on the government-wide and enterprise funds Statement of Net Position. The deferred charges on refundings were losses resulting from the difference in the carrying value of refunded debt and its reacquisition price. The amounts are deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to OPEB and pensions results from differences between expected and actual experience and

investment earnings, changes in assumptions, Town pension contributions after the pension plan measurement date but prior to the Town's year end or other inputs. The amounts are deferred and amortized to OPEB and pension expense in a systematic and rational manner over a period equal to the average expected remaining service lives of employees that are provided with benefits through the OPEB and pension plans, including inactive employees.

The separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The Town's deferred inflows reported on the government-wide and enterprise funds Statement of Net Position are related to its pension and OPEB liabilities. The deferred inflow of resources related to pensions and OPEB results from differences between expected and actual experience and investment earnings, changes in assumptions, changes in proportion and differences between Town contributions and proportionate share of contributions or other inputs. These amounts are deferred and amortized to pension and OPEB expense in the same manner as deferred outflows related to pensions and OPEB, respectively. The Town also has one item, unavailable revenue, which arises only under the modified accrual basis of accounting and is reported as a deferred inflow of resources on the governmental funds Balance Sheet. The unavailable revenue result from amounts received in advance for business licenses and earned interest income that is not currently due in the General Fund and a note receivable in the Community Redevelopment Fund that will be earned in future years as services are provided. These amounts are deferred and recognized as an inflow of resources in the year that the amounts become available.

NET POSITION/FUND BALANCE

The government-wide and enterprise fund financial statements utilize a net position presentation. Net position is categorized as follows:

Net Investment in Capital Assets

This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balance of any bonds, mortgages, notes or other borrowings and deferred inflows/outflows that are attributable to the acquisition, construction, or improvement of those assets and retainage payable. If there are significant unspent related debt proceeds at year end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of *Net Investment in Capital Assets*. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted

This component of net position consists of constraints placed on the use of net position by external restrictions imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted

This component of net position consists of net position that does not meet the definition of Net Investment in Capital Assets or Restricted Net Position.

Fund Balance

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Town is legally bound to honor the specific purposes for which amounts in fund balance may be spent. The fund balance classifications are summarized as follows:

Nonspendable

Nonspendable fund balances include amounts that cannot be spent because they are either (1) not in spendable form; or (2) legally or contractually required to be maintained intact.

Restricted

Restricted fund balances include amounts that are restricted to specific purposes either by (1) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed

Committed fund balances include amounts that can only be used for specific purposes pursuant to constraints imposed by the Town Council through an ordinance or resolution, which have equal authority and are the highest level of decision making authority. The Town had no committed fund balances.

Assigned

Assigned fund balances include amounts that are constrained by the Town's intent to be used for specific purposes but are neither restricted nor committed. Assignments of fund balance are made by the Town Manager or Finance Director based upon authority provided in a Resolution adopted by the Town Council or in the Town's annual budget.

Fund Balance (continued)

Unassigned

Unassigned fund balance includes General Fund amounts that have not been restricted, committed, or assigned to specific purposes.

The Town considers restricted fund balance to be spent when an expenditure is incurred for the restricted purpose. The Town considers committed, assigned or unassigned fund balance to be spent when an expenditure is incurred for purposes for which amounts in any of those fund balance classifications could be used.

Minimum Fund Balance Policy

The Town Council has not adopted a formal minimum fund balance policy. Generally, the Town strives to maintain sufficient unassigned General Fund balance to provide liquidity in the event of a budget shortfall or natural disaster.

ON-BEHALF PAYMENTS

In accordance with U.S. generally accepted accounting principles, on-behalf payments of \$835,484 received by the Town from the State of Florida for the benefit of the MPORT for the fiscal year ended September 30, 2022, have been recognized as intergovernmental revenue in the General Fund. The expenditure for the MPORT pension was recorded in the General Fund as Police Department personal services.

INTERFUND TRANSACTIONS

Transactions between funds during the year consist of loans, services provided, reimbursements or transfers. Loans are reported as Advances from Other Funds and Advances to Other Funds and are subject to elimination in the government-wide financial statements. Services, deemed to be reasonably equivalent in value, are treated as revenue and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are presented as transfers. Transfers between the governmental and business-type activities are eliminated in the government-wide financial statements.

IMPLEMENTATION OF GASB STATEMENTS

During the fiscal year ended September 30, 2022, the Town implemented GASB Statement No. 87, *Leases*, and GASB Statement No. 93, *Replacement of Interbank Offered Rates*. The implementation of GASB Statements No. 87 and 93 had no impact on the Town's financial statements for the fiscal year ended September 30, 2022.

GRANTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies. Any disallowed claims, including amounts already received in prior years, may constitute a liability of the Town for the return of those funds.

ESTIMATES

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets, liabilities, and deferred inflows/outflows, the disclosure of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could vary from the estimates that were used.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS

At September 30, 2022, the Town's cash and cash equivalents included petty cash of \$12,221, deposits in demand deposit accounts of \$133,490,624. The demand deposit accounts of \$133,490,624 are held by financial institutions that comply with the requirements of Florida Statutes and have been designated as a qualified public depository by the State Treasurer of Florida. Qualified public depositories are required to pledge collateral to the State Treasurer with a fair value equal to a percentage of the average daily balance of all government deposits in excess of any federal deposit insurance. In the event of a default by a qualified public depository, all claims for government deposits would be satisfied by the State Treasurer from the proceeds of federal deposit insurance, pledged collateral of the public depository in default and, if necessary, a pro rata assessment to the other qualified public depositories in the collateral pool. Accordingly, all deposits with qualified public depositories are considered fully insured or collateralized in accordance with the provisions of GASB Statements.

The Town's investment securities are held by the counterparty (securities broker) in the Town's name but are not otherwise collateralized or insured. The MPORT investment securities are held in custodial safekeeping accounts.

Florida PRIME consists of equity in an external investment pool administered by the State of Florida pursuant to statutory requirements and operated in a manner consistent with SEC Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC registered mutual funds to use amortized cost, rather than fair value, to report net position used to compute share prices if certain conditions are met.

Those conditions include restrictions on the types of investments held, restrictions on the term-to-maturity of individual investments and the dollar-weighted average of the portfolio, requirements for portfolio diversification, and requirements for divestiture considerations in the event of security downgrades and defaults, and required actions if the fair value of the portfolio deviates from amortized cost by a specified amount. The fair value of the position in the pool is considered to be the same as the Town's account balance (amortized cost) in the pool. The Town may withdraw funds from Florida PRIME on an overnight basis, generally without limitation or imposition of fees.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

The Florida intergovernmental investment pool consists of FLCLASS and FLTRUST. FLCLASS and FLTRUST are organized under Florida Statutes Section 163, the Florida Interlocal Cooperation Act, by Florida public agencies for the purpose of operating an independent investment pool for local governments in Florida and is administered by a Board of Trustees elected by the participants in the pool. FLCLASS and FLTRUST are operated in a manner consistent with SEC Rule 2a7 of the Investment Company Act of 1940. FLCLASS and FLTRUST are measured at net asset value. The Town may withdraw funds from FLCLASS and FLTRUST on an overnight basis, generally without limitation or imposition of fees.

FAIR VALUE OF INVESTMENTS

The Town follows the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*, which establishes a framework for measuring the fair value of investments in a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GASB Statement No. 72 are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Town has the ability to access at the measurement date.

Level 2

Inputs to the valuation methodology include the following:

- Quoted prices for similar assets in active markets.
- Quoted prices for identical or similar assets in inactive markets.
- Inputs other than quoted prices that are observable for the assets.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset.

TOWN OF JUPITER, FLORIDA

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the Town's own estimates for assumptions that market participants would use in pricing the asset or liability. Valuation techniques would typically include discounted cash flow models and similar techniques, but may also include the use of market prices of assets that are not directly comparable to the subject asset.

The fair value measurement of an asset within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the Town's perceived risk of that investment.

Valuation Methodologies

The following valuation methods and assumptions were used by the Town and MPORT in estimating the fair value of financial instruments that are measured at fair value on a recurring basis under GASB Statement No. 72:

Equity securities and REIT index funds: Valued at the closing price reported on the active exchange on which the individual securities are traded.

Equity mutual funds: Valued at the net asset value reported on the active exchange on which the funds are traded.

U.S. Government and U.S. Government Agency securities, negotiable certificates of deposit, tax-exempt state and local debt securities, corporate obligations, and asset-backed bonds: Valued at the closing price reported on the national exchange on which the individual securities are actively traded. Securities that are not actively traded are valued by the investment custodian using a matrix pricing technique based on the securities' relationship to quoted benchmark prices.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

FAIR VALUE OF INVESTMENTS (CONTINUED)

Valuation Methodologies (continued)

Investments measured at net asset value (“NAV”): Certain investments are valued at the unadjusted NAV per share, calculated at September 30, 2022 in a manner consistent with the Financial Accounting Standard Board’s measurement principles for investment companies based on the fair value of the underlying fund investments, as determined by the fund manager. Real estate values may be based upon independent appraisals performed for assets held by the fund or may be estimated by the fund manager. The fair value of real estate is the price that would be received if the asset was sold to a market participant assuming the highest and best use of each asset at September 30, 2022.

The methods and assumptions described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Town and MPORT believe their valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in the methods and assumptions used for the fiscal year ended September 30, 2022.

The investment is valued at NAV and its redemptions must be received by the fund 10 days prior to quarter end.

CUSTODIAL CREDIT RISK

Custodial credit risk is defined as the risk that the Town may not recover cash and investments held by another party in the event of a financial failure. The Town's investment policy requires investments to be held in third party custodial safekeeping accounts in the name of the Town. At September 30, 2022, all Town investments were held in custodial safekeeping accounts in the name of the Town or MPORT.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. MPORT had \$11,124,259 invested in U.S. dollar denominated international equity mutual funds and \$804,572 in foreign bonds at September 30, 2022. All investments are denominated in U.S. dollars, therefore no foreign currency risk exists.

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment in debt securities. Generally, the longer the time to maturity, the greater the exposure to interest rate risk. Town policy requires at least 30% of the investment

CREDIT RISK

Credit risk is the risk that a debt issuer will not fulfill its obligations. The Town's investment policy requires that investments in debt securities, Florida PRIME and money market mutual funds be rated in one of the top two investment grades by a Nationally Recognized Statistical Rating Organization ("NRSRO") and the MPORT requires an investment grade rating (BBB or higher) by an NRSRO when purchased. The MPORT utilizes ratings from Standard and Poor's and Moody's Investor Services for investments.

CONCENTRATION OF CREDIT RISK

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of an investment in a single issuer. The Town's investment policy limits investments held by any single financial institution to a maximum of 50% of the total cost of the investment portfolio, excluding securities held under a third party safekeeping agreement. In the MPORT, securities of a single issuer are limited to no more than 5% of the net position of the pension fund invested in common stocks and debt securities. Investments in mutual funds and money market accounts are excluded from the concentration of credit risk disclosure requirement. At September 30, 2022, the MPORT had investments in the following mutual funds that represented more than 5% of the Plan's total investments: Fidelity Mid Cap Index Fund (13.1%), Euro Pacific Growth Fund (12.7%), SPDR Bloomberg Convertible Fund (7.3%), Cohen & Steers Global List Infrastructure Fund (6.7%), and Fidelity Large Cap Growth Index Fund (5.5%) and an investment in a real estate fund with ARA Core Property Fund (8.0%).

RISKS AND UNCERTAINTIES

The investments of the Town and MPORT include securities, mutual funds and other investments which are exposed to various risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying financial statements. The value, liquidity, and related income of certain securities with contractual cash flows, such as asset-backed

owner and received a note receivable for a portion of the sales price. The note is non-interest bearing and is due in 177 monthly installments of \$800 until fully paid. In lieu of cash payments on the note, the Town and the private owner agreed that the owner shall pay all ongoing costs associated with the operation and maintenance of a public restroom facility located on the property sold by the Town and the owner will receive a monthly credit of \$800 against the promissory note. The note receivable balance was \$54,887 at September 30, 2022.

ECONOMIC DEVELOPMENT LOAN

The Town provided a loan of \$300,000 to a private company as part of the Town's economic development initiative. The company defaulted on the loan in 2013. The loan was collateralized by a pledged certificate of deposit for \$300,000 which the bank applied to the outstanding loan. The Town recorded the \$300,000 due from the company as a loan receivable in the General Fund. The outstanding balance on the loan of \$111,173 was paid during the fiscal year ended September 30, 2022.

NOTE 5 – ADVANCES FROM/TO OTHER FUNDS

ADVANCES DUE FROM CRA

The Town's General Fund and Capital Improvements Fund have advanced funds to the CRA for the purchase of property, construction of public improvements and redevelopment activities within the boundaries of the CRA. The Town and the CRA have entered into an interlocal agreement for the repayment of these advances to the General Fund and Capital Improvements Fund by the CRA, with interest at 3.0%, through the fiscal year ending September 30, 2027. The repayment of the advances ranges from approximately \$793,000 in 2023 to \$1.1 million in 2026, with a final payment of \$524,000 due in 2027, and generally increases each year commensurate with the expected increases in the CRA's tax increment revenues resulting from the redevelopment activities. The outstanding advances payable to the General Fund and Capital Improvements Fund totaled \$3,108,899 and \$816,801, respectively, at September 30, 2022 and are considered to be noncurrent because the repayments are not expected to be available under the modified accrual basis of accounting.

ADVANCE DUE FROM STORMWATER FUND

In 2020, the Town's Water System Fund advanced funds in the amount of \$5.7 million to the Stormwater Fund to be used for various capital improvement projects. The interfund loan agreement provides for the repayment of these advances to the Water System Fund by

PLEDGED UTILITY REVENUE

The Town has pledged the future net revenues (as defined in the bond resolutions and loan agreement, but generally customer revenues and connection charges, net of specified operating expenses) of the water utility system (the “System”) to repay the outstanding revenue bonds and note issued to finance improvements to the System. The water revenue bonds and note are payable solely from the net revenues of the System through 2030. Annual principal and interest payments on the bonds and note are expected to require less than 30 percent of the System net revenues. Total principal and interest remaining to be paid on the water revenue bonds is \$13,059,844 at September 30, 2022. Principal and interest paid on the water revenue bonds and net revenues of the System for 2022 were \$2,620,468 and \$11,060,898, respectively.

DEFEASED BONDS

The Town defeased certain general obligation bonds and revenue bonds by placing the proceeds of the new bonds in irrevocable trust accounts to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Town’s financial statements. FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 9 – INTERFUND TRANSACTIONS (CONTINUED)

The outstanding balances between funds generally result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The amount payable by the Community Redevelopment Fund is for initial working capital and property received from the General Fund and approximately \$681,000 of the balance is scheduled to be collected in the subsequent year. The amount payable by the Stormwater Fund is a loan from the Water System Fund for capital improvements and approximately \$353,000 of the balance is scheduled to be collected in the subsequent year. Interfund transfer activity for the fiscal year ended September 30, 2022, is summarized as follows:

Transfer To	Transfer From	Amount
Capital Improvements Fund	General Fund	\$ 10,662,648
Capital Improvements Fund	Nonmajor Governmental Funds	8,093,500
Capital Improvements Fund	Building Fund	7,290,463
Capital Improvements Fund	Water System Fund	3,016,743
Stormwater Fund	American Rescue Plan Fund	2,509,341
Water System Fund	American Rescue Plan Fund	323,939
Community Redevelopment Fund	Capital Improvements Fund	270,888
Water System Fund	Capital Improvements Fund	<u>12,669</u>
Total		<u>\$ 32,180,191</u>

Transfers were used to: (1) move revenue from the fund that is required to collect it to the fund that is required or allowed to expend it; and, (2) use excess revenue collected in certain funds to finance various programs and projects accounted for in other funds in accordance with budgetary authorizations.

NOTE 10 – EMPLOYEE RETIREMENT PLANS

The Town of Jupiter administers one single-employer, defined benefit pension plan, the Municipal Police Officers' Retirement Trust ("MPORT"), which covers all sworn police officers. The Town also participates in the Florida Retirement System ("FRS") Pension Plan and the Retiree Health Insurance Subsidy ("HIS") Trust Fund, both of which are multiple-employer, cost-sharing, defined benefit public employee retirement plans administered by the State of Florida. FRS and HIS cover all Town employees, excluding sworn police officers covered by MPORT. The net pension liability/asset, deferred outflows/inflows of resources related to pensions and pension expense related to these retirement plans are summarized as follows at September 30, 2022:

	MPORT	FRS	HIS	Total
Net Pension Liability	<u>\$ 22,015,927</u>	<u>\$ 16,172,430</u>	<u>\$ 5,033,633</u>	<u>\$ 43,221,990</u>

MUNICIPAL POLICE OFFICERS' RETIREMENT TRUST ("MPORT")

The Municipal Police Officers' Retirement Trust ("MPORT") is a single-employer, defined benefit pension plan. The plan is administered by the MPORT pension board consisting of five members, two of which are Town residents appointed by the Town Council; two of which are police officers elected by members of the MPORT; and, one person selected by a majority of the other four members and appointed by the Town Council. The Board has the ability to make recommendations on establishing and amending pension plan provisions which can only be authorized by the Town Council. When the Town Council adopted Ordinance 9-95 on March 21, 1995, participation in the plan became mandatory for all full-time police officers entering employment on or after April 1, 1995.

MUNICIPAL POLICE OFFICERS' RETIREMENT TRUST ("MPORT") (CONTINUED)

The MPORT issues a publicly available, stand-alone financial report. The MPORT financial report may be obtained by writing to the Finance Department, Town of Jupiter, 210 Military Trail, Jupiter, Florida 33458 or by calling (561) 746-5134. Membership in the MPORT was comprised of the following at October 1, 2022, the date of the latest actuarial valuation:

Active employees	88
Retirees and beneficiaries receiving benefits	73
DROP participants	25
Inactive employees	<u>1</u>
Total Members	<u><u>187</u></u>

The Town is required to contribute an actuarially determined amount necessary to pay the annual normal cost of the plan plus the additional amount needed to amortize any unfunded accrued liability. Members hired prior to March 6, 2012, are referred to as "Tier One" employees and members hired on or after March 6, 2012, are referred to as "Tier Two" employees. Contributions by Plan members and the Town are established and may be amended by Town ordinance. Tier one employees, are required to contribute 8.78% of salary effective October 1, 2012; 9.25% of salary effective October 1, 2014; and, 10.00% of salary effective October 1, 2015. Tier Two employees are required to contribute 10.00% of salary. Pursuant to Florida Statutes, Chapter 185, the State collects a tax on insurance premiums for property and casualty coverage and annually remits a contribution to the MPORT. Administrative costs of the MPORT are financed through investment earnings.

RETIREMENT AND OTHER BENEFITS

The MPORT provides retirement, death, and disability benefits for its members. Tier One employees may retire with normal benefits after the earlier of: (1) age 60; (2) age 55 with 10 years of credited service; or (3) when the total of the member's age, computed in terms of full months, plus the member's credited service, computed in terms of full months, equals 780 months. Tier Two employees may retire with normal benefits after the earlier of: (1) age 55 with 10 years of credited service; or (2) when the total of the member's age, computed in terms of full months, plus the member's credited service, computed in terms of full months, equals 840 months and the member has 25 years of credited service.

NOTE 10 – EMPLOYEE RETIREMENT PLANS (CONTINUED)

RETIREMENT AND OTHER BENEFITS (CONTINUED)

Normal retirement benefits are 3.0% (2.75% for Tier Two employees) of the member's average monthly salary multiplied by years of credited service at the normal retirement date (limited to 25 years for Tier Two employees). Average monthly salary for purposes of calculating benefits is the average of covered salary over the highest three years out of the last ten years of credited service. Reduced early retirement benefits are available once a member reaches age 50 and accumulates 10 years of credited service.

The early retirement benefit for Tier One employees is equal to the accrued benefit reduced by 3.0%, multiplied by the number of years by which the starting date of the benefit precedes age 55. For Tier Two employees, the early retirement benefit is equal to the accrued benefit reduced by 3.0% for every 24 months by which the starting date of the benefit precedes 840 months. The accrued benefit is that portion of a member's normal retirement benefit earned at any point in time. A supplemental benefit of \$100 per month is available for members, plus for members who retire on or after October 1, 2001, a monthly benefit equal to the lesser of (1) \$150 or (2) the greater of (a) \$30 and (b) \$5 multiplied by credited service. The supplemental benefit is reduced for early retirement. Members in DROP are not eligible to receive supplemental benefits until their DROP participation ends.

Eligibility for disability benefits begins from the member's date of hire. The amount of the monthly benefit due to a total and permanent disability is: (1) the greater of (a) 60% of the covered salary at the time of the member's disability or (b) the monthly income payable for ten years certain that can be provided by the single sum value of the member's accrued benefit; plus (2) the supplemental benefit. This benefit is payable until the member's death or recovery. Effective March 6, 2012, members with a disability not incurred in the line of duty are eligible for Disability Retirement benefits after completion of 10 years of service.

DEFERRED RETIREMENT OPTION PLAN ("DROP")

Tier One Members are eligible to enter DROP at the Tier One Normal Retirement Date. Tier Two Members are eligible to enter DROP the first of the month coincident with or next following the earlier of: (1) the Tier Two Normal Retirement Date, or, (2) 22 years of Credited Service regardless of age with no reduction in the Tier Two Accrued Benefit for DROP entry prior to the Tier Two Normal Retirement Date.

DEFERRED RETIREMENT OPTION PLAN (“DROP”) (CONTINUED)

The Accrued Benefit is frozen at DROP entry and accumulates in DROP. Participants in DROP are not eligible for death or disability benefits. The Supplemental Benefit is not payable while a Member is in DROP. The maximum DROP participation duration was extended from 5 years to 8 years effective March 6, 2012. Members in the DROP on March 6, 2012 were allowed to elect the 8 year DROP by agreeing to pay contributions at the employee contribution rate in effect at DROP entry for the remainder of the initial 5 years of DROP participation with 1/3 of these contributions credited to the members’ DROP account. None of the members in DROP on March 6, 2012 exercised this option.

For Tier One members who enter DROP after March 6, 2012, employee contributions continue at the rate in effect on the date of entry into DROP for the first four years of DROP participation with 1/3 of these contributions credited to the members’ DROP account. For Tier Two DROP entrants, employee contributions continue for all years of DROP participation with 1/4 of these contributions credited to the members’ DROP account. Tier Two maximum DROP participation is based on creditable years of service.

The balance of amounts held under DROP was \$9,751,582 at September 30, 2022.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the MPORT are prepared using the economic resources measurement focus and the accrual basis of accounting. Employee and employer contributions are recognized in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Other expenses are recognized when the corresponding liabilities are incurred. Investment income is recognized as revenue when earned. Investments are reported at fair value, except for money market mutual funds which are reported at amortized cost, and are classified as investments in the financial statements. Investment securities are valued at the closing price reported on the national exchange on which the individual securities are actively traded. Securities that are not actively traded are valued using a matrix pricing technique based on the securities’ relationship to quoted benchmark prices. Net asset values of commingled real estate funds are determined by the fund managers using the fair values of the underlying investments of the fund. Net appreciation or depreciation in the fair value of investments includes the difference between the fair value and cost of the investments held, as well as the net realized and unrealized gains and losses for securities sold during the period. Interest and dividend income are recognized on the accrual basis when earned. Purchases and sales of investments are recorded on a trade date basis. Investment earnings

are reduced for investment related expenses, such as management fees, portfolio evaluation and custodial services. Benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms.

INVESTMENT POLICY

The policy in regard to the allocation of invested assets is established and may be amended by a majority vote of the Board of the MPORT. It is the policy of the MPORT Board to pursue an investment strategy that reduces risk through the prudent diversification of the investment portfolio across a broad selection of distinct asset classes. The investment policy of the MPORT discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. There were no changes in the investment policy of the MPORT for the fiscal year ended September 30, 2022.

The asset allocation policy adopted by the MPORT Board at September 30, 2022 was as follows:

Asset Class	
Domestic equity	32%
International equity	15
Convertible equity	8
Infrastructure	5
Bonds	24
Fixed Income and (TIPS)	5
Private real estate	5

RATE OF RETURN

For the year ended September 30, 2022, the annual money-weighted rate of return on MPORT's investments, net of investment expenses, was a negative 18.7%. The money-weighted rate of return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

NET PENSION LIABILITY (ASSET)

The components of the net pension liability for MPORT for the most recent actuarial valuation as of October 1, 2022, as reported by the actuary in the September 30, 2022 Supplement, were as follows:

Total pension liability	\$ 109,451,763
Less plan fiduciary net position	<u>(87,435,836)</u>
Net Pension Liability	<u>\$ 22,015,927</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	<u>79.9%</u>

ACTUARIAL ASSUMPTIONS

The net pension liability of the MPORT was determined by an actuarial valuation as of October 1, 2022, as reported by the actuary in the September 30, 2022 Supplement, using the following significant actuarial assumptions:

Actuarial cost method	Entry Age Normal
Amortization method	Level dollar
Amortization period	20 years
Asset valuation method	5 year smoothed fair value
Investment rate of return (net of expenses, with inflation)	7.2%
Payroll growth	0.0%

CHANGES IN ACTUARIAL ASSUMPTIONS

There were no changes in the actuarial assumptions used in the October 1, 2022 actuarial valuation of the Plan from the prior actuarial valuation.

LONG-TERM EXPECTED RATE OF RETURN

The long-term expected rate of return on investments of the MPORT was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce a long-term expected rate of return of 7.0% by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target allocation as of September 30, 2022 (see the discussion of the pension plan's investment policy) are summarized in the following table:

Asset Class	
Domestic equity	7.1%
International equity	3.1%
Convertible equities	6.4%
Infrastructure	5.6%
Bonds	2.0%
Fixed Income and (TIPS)	2.3%
Real estate investment trusts (REITs)	6.9%
Private real estate	6.4%
Cash	- 0.1%

DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.0% and was based on the expected rate of return on investments of the plan. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the MPORT's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

STATE OF FLORIDA PENSION PLANS

All regular, full-time employees of the Town, except police officers, are required to participate in the Florida Retirement System (FRS) Pension Plan and the Retiree Health Insurance Subsidy (HIS) Trust Fund administered by the Florida Department of Management Services, Division of Retirement. FRS and HIS are cost-sharing, multiple-employer defined benefit pension plans with approximately 1,000 participating employers. FRS and HIS were established and are administered in accordance with Chapter 121 and Section 112.363, Florida Statutes, respectively.

FRS includes a DROP available for eligible employees. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state community college, or district school board, unless restricted from FRS membership under sections 121.053 and 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation is optional for cities, municipalities, special districts, charter schools and metropolitan planning organizations.

STATE OF FLORIDA PENSION PLANS (CONTINUED)

HIS membership is optional and available to all retirees under the state-administered retirement system, provided the retiree provides proof of health insurance coverage, which can include Medicare.

Participation is compulsory for cities, municipalities, special districts, charter schools and metropolitan planning organizations that participate in FRS.

BENEFITS PROVIDED

FRS provides retirement, survivor and disability benefits to plan members and beneficiaries. Pension benefits of FRS are established by Florida Statutes, Chapter 121, and may be amended by the Florida Legislature. Retirement benefits are computed on the basis of age and/or years of service, average final compensation and service credit. Members initially enrolled on or after July 1, 2001 through June 30, 2011, vest after six years of creditable service. Members initially enrolled on or after July 1, 2011, vest after eight years of creditable service. HIS provides retirees and beneficiaries a monthly benefit equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The monthly benefit payment is established by Section 112.363, Florida Statutes and is at least \$30, but not more than \$150.

TOWN CONTRIBUTIONS

FRS members are required to contribute 3.0% of their annual covered payroll and no contribution is required for HIS members. Participating governments, including the Town, contribute to FRS at actuarially determined rates for various classes of employees, which are presently 10.25% of annual covered payroll for employees covered in the regular class, 29.91% for senior management class, 26.17% for special risk class, 55.34% for elected officials and 16.94% for employees covered in the FRS DROP program. Participating governments, including the Town, also contribute to HIS based on a percentage of gross compensation for all active FRS members, which is presently 1.66%. The Town's contributions to FRS and HIS for the fiscal year ended September 30, 2022 were \$2,308,576, which was equal to 100% of the required contributions for the year.

NOTE 10 – EMPLOYEE RETIREMENT PLANS (CONTINUED)

FUNDING POLICY

FRS funding policy provides for monthly employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are adequate to accumulate sufficient assets to pay benefits when due based upon plan assumptions. HIS uses a pay-as-you-go funding policy based on monthly employer contributions at a flat percentage of gross compensation for all active FRS members. Employer and employee contribution rates are established by State law as a level percentage of payroll. Employer contribution rates are determined using the entry-age actuarial cost method. The consulting actuary recommends rates based on the annual valuation, but actual contribution rates are established by the Florida Legislature.

PUBLICLY AVAILABLE FINANCIAL REPORT

The State of Florida issues a publicly available financial report for FRS and HIS that includes financial statements and required supplementary information. The complete financial report is available on the Publications page of the Division of Retirement's website at www.frs.myflorida.com or by writing to the Research and Education Section at P.O. Box 9000, Tallahassee, Florida, 32315-9000 or by calling toll free 877-377-1737 or 850-488-5706.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of FRS and HIS are prepared using the economic resources measurement focus and the accrual basis of accounting. Employee contributions are recognized in the period of time for which the contributions are assessed. Employer contributions are recognized in the period in which employee services are performed. Benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the terms of FRS and HIS. Other expenses are recognized when the corresponding liabilities are incurred. Investment income is recognized as revenue when earned. Investments are reported at fair value and are managed by external investment managers. The independent investment custodian for FRS and HIS determines the fair value of securities using various third party pricing sources. For private market investments, where no readily ascertainable market value exists, fair values are based on net asset value (capital account balance) provided by investment managers at the closest available reporting period and adjusted for subsequent contributions and distributions. The net appreciation (depreciation) in fair value of investments is recorded as an increase (decrease) to investment income based on the valuation of investments. Investment earnings are net of

investment related expenses, such as management fees, portfolio evaluation and custodial services. For purposes of measuring the net pension liability, deferred inflows/outflows of resources related to pensions, and pension expense, information about the fiduciary net position of FRS and HIS and the additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by FRS and HIS.

PAYABLES TO FRS AND HIS

There were no amounts payable to FRS or HIS by the Town at September 30, 2022.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED INFLOWS/OUTFLOWS OF RESOURCES RELATED TO FRS AND HIS PENSIONS

At September 30, 2022, the Town reported a liability of \$16,172,430 and \$5,033,633 for its proportionate share of the net pension liability of FRS and HIS, respectively. The net pension liability of each plan was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability of each plan was determined by actuarial valuations as of July 1, 2022. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, as actuarially determined. At June 30, 2022, the Town's FRS proportion was 0.043464885 percent, which was a decrease of 0.001369906 percent from its proportion measured as of June 30, 2021 and the HIS proportion was 0.047524777 percent, which was a decrease of 0.000935415 percent from its proportion measured as of June 30, 2021.

ACTUARIAL ASSUMPTIONS

The total pension liability for FRS and HIS was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	FRS	HIS
Valuation date	July 1, 2022	July 1, 2022
Measurement date	June 30, 2022	June 30, 2022
Actuarial cost method	Individual Entry Age	Individual Entry Age
Amortization method	Level percent of pay, closed	Level percent of pay, closed
Amortization period	20/30 years	25/30 years
Asset valuation method	5 year smoothed	Fair value
Discount rate	6.70%	3.54%
Inflation	2.40%	2.40%
Salary increases, including inflation	3.25%	3.25%
Long-term expected rate of return, net of investment expenses	6.70%	N/A
Municipal bond rate	N/A	3.54%
Cost of living adjustments	3% pre-July 2011, 0% thereafter	N/A
Mortality rates	PUB-2010 base table with Scale MP-2018	PUB-2010 base table with Scale MP-2018

The actuarial assumptions used in the July 1, 2022 FRS valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

Changes in Actuarial Assumptions: The long-term expected rate of return was decreased from 6.80% to 6.70% for 2022. The municipal bond rate for HIS was increased from 2.16% for 2021 to 3.54% for 2022.

LONG-TERM EXPECTED RATE OF RETURN

The long-term expected rate of return on FRS investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return of 6.7% by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class are as follows:

Asset Class	Long-Term Real Rate of Return
Cash	2.6%
Fixed income	4.4%
Global equity	8.8%
Real estate	7.4%
Private equity	12.0%
Strategic investments	6.2%

DISCOUNT RATE

The discount rate used to measure the total pension liability of FRS at June 30, 2022 was 6.7% for FRS and 3.54% for HIS. The FRS discount rate was based on the expected rate of return on FRS investments. The HIS discount rate was based on the municipal bond rate which was 3.54%, based on an index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates and that member contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the fiduciary net position of FRS was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on investments of FRS was applied to all periods of projected benefit payments to determine the projected total pension liability. Because HIS uses a pay-as-you-go funding structure, a municipal bond rate of 3.54% was used to determine the total pension liability.

DESCRIPTION OF THE PLAN

The Town administers a single-employer defined benefit health care plan (the "Plan") that provides health care benefits to eligible retired employees and their beneficiaries. The Town Council has the authority to establish and amend the premiums for and the benefit provisions of the Plan. The Plan is financed on a "pay-as-you-go" basis and is not administered as a formal qualifying trust. The Plan does not issue a publicly available financial report.

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 11 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

DESCRIPTION OF THE PLAN (CONTINUED)

The Town is required by Florida Statute 112.0801 to allow retirees to buy healthcare coverage at the same group insurance rates that current employees are charged, resulting in an implicit healthcare benefit. The State of Florida prohibits the Plan from separately rating retirees and active employees. The Plan therefore charges both groups an equal, blended rate premium. Although both groups are charged the same blended rate premium, GAAP requires the actuarial figures to be calculated using age adjusted premiums approximating claim costs for retirees separate from active employees. The use of age adjusted premiums results in the addition of the implicit rate subsidy into the actuarial accrued liability. Plan members receiving benefits contribute 100% of the monthly premium ranging from a minimum of \$913 for single coverage to a maximum of \$2,132 for single plus spousal coverage.

PLAN MEMBERSHIP

Membership in the Plan was comprised of the following at September 30, 2022, the date of the most recent actuarial valuation:

Active employees	348
Retirees and beneficiaries receiving benefits	11
Inactive employees	<u>--</u>
Total Members	<u><u>359</u></u>

TOTAL OPEB LIABILITY

The Town's total OPEB liability of \$1,037,096 was measured as of September 30, 2022, and was determined by an actuarial valuation dated October 1, 2021.

ACTUARIAL METHODS AND SIGNIFICANT ASSUMPTIONS

The actuarial methods and significant assumptions used to determine the Town's total OPEB liability for the current year are summarized as follows:

Valuation date	October 1, 2021
Actuarial cost method	Entry Age Normal
Port-retirement benefit increases	None
Healthcare cost trend rates	6.0% per year initially, reduced annually by an ultimate rate of 4.5%
Amortization method	Level Percent of Projected Salary - Closed
Remaining amortization period	7.6 years
Asset valuation method	N/A ¹
Actuarial assumptions:	
Discounted rate	4.77% ²
Projected salary increases	3.50%
Mortality rates	PUB - 2010 mortality table with generational scale MP - 2020

(1) The plan is funded on a pay-as-you-go basis and is not administered as a formal qualifying trust. There were no plan assets as of September 30, 2022, the date of the most recent actuarial valuation.

(2) Since there are currently no invested plan assets held in trust to finance the OPEB obligation, the discount rate is the long-term expected rate of return on tax-exempt, high quality municipal bonds based on the *Bond Buyer 20-Bond GO Index*.

NOTE 12 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town is also subject to risk of loss arising in the ordinary course of business, including, but not limited to, claims for damages for personal injuries, employment-related claims, and breach of contract. Commercial insurance is purchased for certain specialized insurance coverages, including, but not limited to property, equipment, general liability, automobile, professional liability, and workers compensation. The Town uses the General Fund to account for all commercial insurance and retained risks of loss.

On January 1, 2015, the Town entered into a partially self-insured health plan with a third-party administrator. The Town is partially self-insured up to a stop loss of \$150,000 per claim and has purchased excess insurance for claims exceeding the stop loss for individual and aggregate claims from Blue Cross and Blue Shield of Florida.

The Town has recorded a claims liability of \$184,659 (all current) at September 30, 2022. This claims liability reflects claims development for group health insurance. The liability falls within the actuarially determined range, from a valuation for all claims based upon the date the loss was incurred and includes a provision for claims incurred but not yet reported (IBNR).

TOWN OF JUPITER, FLORIDA

NOTES TO FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 12 – RISK MANAGEMENT

The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated annually to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, such as those from subrogation, are also considered in the claims liability estimate. The following summarizes the claims liability activity for 2022:

Fiscal Year Ending September 30,	Beginning	Claims Expense	Claims Paid	Ending
2021	\$ 177,990	\$ 3,774,547	\$ (3,910,692)	\$ 41,845
2022	41,845	4,214,382	(4,071,568)	184,659

For each of the past three years, there have been no settlements that have exceeded the Town's insurance coverage. The claims liability at September 30, 2022 was all current.

As a political subdivision of the State of Florida, the Town has sovereign immunity under the Florida Constitution for tort actions. Therefore, in accordance with Chapter 768.28 Laws of Florida, the Town is not liable to pay a claim or judgment, or any portions thereof, which when totaled with all other claims or judgments paid by the State or its agencies or subdivisions arising out of the same incident or occurrence, exceeds the aggregate sum of \$300,000. Chapter 768.28 also provides that judgments may be claimed or rendered in excess of these limits; however, these amounts must be reported to and approved by the Florida Legislature.

NOTE 13 – FUND DEFICIT

The Community Redevelopment Fund had a deficit fund balance of \$1,144,497 at September 30, 2022. The majority of this amount represents a loan from the General Fund used to fund expenditures for property acquired in the CRA district. The loan will be paid from future tax increment revenues. In the event the future tax increment revenues are not sufficient, the Town plans to transfer funds from the General Fund to cover the deficit.

CONTRACT COMMITMENTS

The Town has uncompleted construction contracts for the Town's municipal complex, improvements to the water system, infrastructure and other improvements. The water system construction is funded primarily from capital contributions. General revenues and impact fees fund the municipal complex, infrastructure and other improvements. At September 30, 2022, the remaining commitments on all uncompleted contracts were \$27,022,850. The outstanding contract commitments at September 30, 2022, are summarized as follows:

	Contract Amount	Payments	Retainage Payable	Remaining Contract Communication

HARBOURSIDE TAX INCREMENT INCENTIVE AGREEMENT

The Harbourside Development ("Harbourside") is a \$150 million, Town Center project completed in 2014 and located on approximately 10 acres of waterfront property along the Intracoastal Waterway within the boundaries of the Town's Community Redevelopment Agency (CRA). Pursuant to State statutory authority for public-private partnerships to rehabilitate and develop properties within a Community Development Area, the Town's CRA entered into a tax incentive agreement with the Harbourside developer to provide a rebate of the tax increment funds received by the CRA in future years equal to 50% of the tax increment revenue from the economic development of the Harbourside property, up to \$350,000 annually, for a period of 15 years following completion. The total rebate liability at September 30, 2022 was \$1,560,657 which includes \$704,510 accrued in the Community Redevelopment Fund and an additional \$856,147 accrued in the statement of net position due to the anticipated long term nature of these payments. The Town settled the litigation with Harbourside in January 2023 and the outstanding balance of the rebate liability will be paid to the developer in fiscal year 2023.

COST SHARING AGREEMENT

The Town entered into an agreement with the City of Palm Beach Gardens, Florida, (“PBG”) and the Town of Juno Beach, Florida, to share costs related to public safety dispatch services. The agreement is for a five-year period ending September 30, 2021. The agreement has been extended for an additional five-year period through September 30, 2026. The Dispatch Services are provided by PBG which operates the dispatch center. Each municipality’s share of the operating costs are based upon the percentage of each municipality’s population as compared to the total population of all the contracting municipalities being served. The Town’s costs related to the agreement were approximately \$2,314,000 for the fiscal year ended September 30, 2022.

ECONOMIC DEVELOPMENT LOAN GUARANTEES

In 2006, the Town established a \$3 million economic development initiative to assist biotechnology businesses in relocating to or expanding in northern Palm Beach County and generating jobs for north county residents. The Town’s program provides direct loans and loan guarantees to qualifying companies. Generally, the companies negotiate financing for their proposed project with a participating local financial institution and the Town provides a loan guarantee in the form of a certificate of deposit pledged by the Town to the financial institution. The lender has the right to immediately draw against the pledged certificate of deposit in the event of a default by the borrower with the covenants and obligations of the loan. At September 30, 2022, the Town had pledged certificates of deposit totaling approximately \$1,872,000 to a financial institution as collateral for outstanding loan guarantees of approximately \$1,346,000 under the economic development program. The outstanding loan guarantees expire through 2025, at which time the pledged certificates of deposit mature and the funds will be released to the Town.

INFRASTRUCTURE EQUITY

Beginning in 2012, the Town entered into agreements with various homeowner associations (HOA) for the maintenance of certain rights of way including streets, sidewalks and storm drainage infrastructure items within the HOA developments. The HOAs transferred title of these infrastructure right of way assets to the Town, which were recognized as contributed capital and capital assets. The HOAs agreed to make payments to the Town annually over a period of 4 to 10 years, in amounts ranging from \$2,465 to \$33,025 to compensate the Town for the cost of maintaining the right of way assets.

TOWN OF JUPITER, FLORIDA

NOTES TO BUDGETARY COMPARISON SCHEDULES (CONTINUED)

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – BUDGETARY ACCOUNTING

Annual budgets are adopted on the modified accrual basis of accounting consistent with U.S. generally accepted accounting principles for the General Fund, Community Redevelopment Fund, all debt service funds and the Capital Improvements Fund. The budgets represent departmental appropriations as authorized by Town ordinance. Expenditures may not legally exceed budgeted appropriations at the department level. The Town Manager has the authority to approve all budget transfers within a department. Budget transfers between departments and transfers involving appropriation of additional revenues require the approval of the Town Council. Accordingly, the Town's legal level of budgetary control is at the department level.

For the fiscal year ended September 30, 2022, supplemental budget appropriations of expenditures of \$2,124,436 for the General Fund and \$745,443 for the Community Redevelopment Fund were approved by the Town Council during the year. In addition, the General Fund had a supplemental budget appropriation of other financing uses of \$10,662,648. Total expenditures may not legally exceed total fund appropriations including any budgeted fund balance from prior years. All annual appropriations lapse at year end. The budget amounts presented reflect the original budget and the amended budget based on legally authorized revisions to the original budget during the year.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is employed as an extension of formal budgetary control in the General Fund. Encumbrances lapse at year end and become obligations of the subsequent year's budget. At September 30, 2022, the Town had commitments related to unperformed contracts, which have been re-appropriated in the 2022 annual budget. These amounts are not included in the current year's expenditures as reported in the budgetary comparison schedules.

NOTE 2 – BUDGET AND ACTUAL COMPARISONS

The budgetary comparison schedule for the General Fund is prepared under the GAAP basis of accounting used in preparing the appropriated budget, except that the Town's self-insurance operations accounted for in the GAAP basis General Fund financial statements are not budgeted in the General Fund. As a result, the expenditures reported in the General Fund budgetary comparison schedule differ from that reported on the GAAP basis by the amount that insurance expenditures exceeded related insurance reimbursements.

TOWN OF JUPITER, FLORIDA

NOTES TO BUDGETARY COMPARISON SCHEDULES

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2021

NOTE 2 – BUDGET AND ACTUAL COMPARISONS

The budgetary comparison schedule for the Community Redevelopment Fund is prepared under the GAAP basis of accounting used in preparing the appropriated budget. As a result, the revenue and expenditures reported in the budgetary comparison schedule for the Community Redevelopment Fund agree with that reported on the GAAP basis.

Notes to Schedule:

The money-weighted rate of return considers the changing amounts estimated as invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. Cash flows are estimated on a monthly basis and are assumed to occur at the beginning of each month. Cash inflows are netted with cash outflows, resulting in a net cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

Notes to Schedule:

Information prior to adoption of GASB Statement No. 75 in fiscal year 2018 is not available.

The plan is funded on a pay-as-you-go basis and is not administered as a formal qualifying trust. There were no plan assets as of the date of the most recent valuation. Since there are currently no invested plan assets held in trust to finance the OPEB obligation, the discount rate is the long-term expected rate of return on tax-exempt, high quality municipal bonds based on the Bond Buyer 20-Bond GO Index.

Changes in actuarial assumptions:

Changes of assumptions and other inputs reflect the effects of changes in the discount rate each year.

The following are the discount rates used for each fiscal year:

2022	4.77%
2021	2.43%
2020	2.21%
2019	4.24%
2018	4.24%

COMPLIANCE REPORTS AND MANAGEMENT LETTER

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Mayor, Members of the Town Council,
Audit Committee and Town Manager
Town of Jupiter, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jupiter, Florida (the "Town") as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated March 28, 2023. Our report includes a reference to another auditor who audited the financial statements of the Municipal Police Officers' Retirement Trust Fund, the fiduciary fund of the Town, as described in our report on the Town's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR THE
MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Mayor, Members of the Town Council,
Audit Committee and Town Manager
Town of Jupiter, Florida

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited the Town of Jupiter, Florida (the "Town") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Town's major federal program for the fiscal year ended September 30, 2022. The Town's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the fiscal year ended September 30, 2022.

Basis for Opinion on Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Town's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Town's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOWN OF JUPITER, FLORIDA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the “Schedule”) presents the expenditure activity of all federal awards of the Town of Jupiter, Florida (the “Town”) for the fiscal year ended September 30, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Town, it is not intended to and does not present the financial position, changes in net position/fund balance or cash flows of the Town. Expenditures of State financial assistance for the fiscal year ended September 30, 2022 did not exceed the \$750,000 threshold for a Florida Single Audit.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Certain pass-through entity identifying numbers were not available for pass-through awards listed in the Schedule for the fiscal year ended September 30, 2022.

The Town made no payments to subrecipients from Federal awards for the fiscal year ended September 30, 2022.

NOTE 3 – INDIRECT COST RATE

The Town has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

**MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE
AUDITOR GENERAL OF THE STATE OF FLORIDA**

To the Honorable Mayor, Members of the Town Council,
Audit Committee and Town Manager
Town of Jupiter, Florida

Report on the Financial Statements

We have audited the financial statements of the Town of Jupiter, Florida (the “Town”), as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated March 28, 2023. We did not audit the financial statements of the Municipal Police Officers’ Retirement Trust Fund, which represents 87%, 87% and 45%, respectively, of the assets, net position/fund balance, and revenues/additions of the aggregate remaining fund information.

Auditors’ Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors’ Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditors’ Report on Compliance for the Major Federal Program and on Internal Control over Compliance Required by the Uniform Guidance; Schedule of Findings and Questioned Costs; Summary Schedule of Prior Audit Findings; and Independent Accountants’ Report on examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedules, which are dated March 28, 2023, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no audit findings made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in Note 1 to the financial statements. Also, as discussed in Note 1, the Town included the Jupiter Community Redevelopment Agency (the “CRA”) as a component unit of the Town.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Town met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the Town. It is management’s responsibility to monitor the Town’s financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same. Our assessment was done as of the fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Special District Component Unit

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component unit that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Honorable Mayor, Town Council, Audit Committee and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE PURSUANT TO SECTION 218.415, FLORIDA STATUTES

To the Honorable Mayor, Members of the Town Council,
Audit Committee and Town Manager
Town of Jupiter, Florida

We have examined the Town of Jupiter, Florida (the "Town") compliance with Section 218.415, Florida Statutes, Local Government Investment Policies, for the fiscal year ended September 30, 2022. Management of the Town is responsible for the Town's compliance with the specified requirements. Our responsibility is to express an opinion on the Town's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Town complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Town complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the Town's compliance with the specified requirements.

In our opinion, the Town complied, in all material respects, with Section 218.415, Florida Statutes for the fiscal year ended September 30, 2022.

This report is intended solely to describe our testing of compliance with Section 218.415, Florida Statutes and it is not suitable for any other purpose.
