

INFORMATION SYSTEMS DEPARTMENT

MEMORANDUM

To: Frank Kitzerow, Town Manager
From: Karl Craig, Director, Information Systems
Date: January 3, 2025
Re: Town Hall Door Access Control and Alarm System Modifications

Requesting approval to award a purchase order to Accelerated Technologies, Inc. in the amount of \$43,837.98 for the purpose of alarming all exterior doors and modifications to the access control system to improve security and control unauthorized movement within town hall.

Background

On October 3, 2023 Town Council approved the award of \$91,114 to Accelerated Technologies, Inc. for the installation and configuration of the access control system currently in use within town hall. After moving in an occupying the building several areas of improvement have been identified with regard to security and safety, which require Accelerated Technologies, Inc. expertise and familiarity with the current system and its application.

These improvements include the alarming of all exterior doors and the addition of access controls on new or existing hallway doors.

Accelerated Technologies, Inc. is the only vendor with the knowledge, expertise, and experience to provide the necessary modifications, which include extensive programming to the existing system within Jupiter Town Hall. This experience and familiarity with the access control system requires their continued involvement to complete this project.

Funding

- Funding is programmed into the FY25 budget and will be split between the following accounts:
- 45040024-546000 Building 40%
- 40050033-546000 Utilities 40%
- 00190019-546000 General Fund 20%
